**LARGE BUSINESS DISTRICT TRACT TO CHANGE HANDS**

Local Companies Buy Holdings of Spreckels Estate, Looking to Future Growth

Transfer of the real estate interests of the Spreckels estate to Theo. H. Davies & Co. and Bishop & Co. was agreed upon late yesterday afternoon, the negotiations having been conducted through F. E. Steere of the Henry Waterhouse Trust Company. The transaction is one of the largest and most important that Honolulu has known, and Steere stated this morning that the fact that there was such a deal pending had been conspicuously hidden until its culmination, for the very reason of its great importance.

The lands included in the big real estate deal between the Spreckels estate and the local companies includes the entire block bounded by Merchant, Queen, Alakea and Bishop streets, with the exception of the Hendrie's property at the corner of Merchant and Alakea. It also includes a strip of land on the east side of Bishop street between Merchant and Queen streets. The consideration is reported to be \$550,000.

It was stated this morning that the purchase of the Spreckels estate holdings had been made with a view to future and not to immediate changes, and that there was little likelihood of immediate building construction on the premises. Both Bishop & Co. and Davies & Co. are provided with accommodations for some time to come. It is said, however, that the purpose of Bishop & Co. is the more effectual consolidation of the various branches of its business. On this point, however, no definite information was given.

An important feature of the deal is the fact that it is taken as a further step in the extension of the business district of Honolulu in a Walkirk direction.

With the completion of the improvements proposed to be made upon the property, the already large importance of Merchant street will be further enhanced.

**SUMMER SCHOOL TO BEGIN WORK ON MONDAY NEXT**

Many parents are enrolling their boys in the Y. M. C. A. summer school, which opens Monday, and it is expected that the five weeks of creative study at the Y. M. C. A. under their instructors will prove one of the biggest features of the summer work.

The classes of the day school will be in divisions of the ninth, seventh and eighth grades with a special one-period class on the making up of back work for those boys who are behind in their study.

A number of boys have enrolled from Pan-Pacific academy and the other schools of the city, taking the regular program for the mornings of the vacation school. The program of school consists of a thorough study of English in composition, reading and spelling, and arithmetic, history, geography and civics. These courses will con-

THE MONKEYS IN HONOLULU

**Casey, Biz and Trickie**Two Charming Chimpanzees and a Delightful Dog Jack London, the animal author and traveler, said in the issue of *The Monkeys in Honolulu* that:

"I'm so pleased at seeing one of my old chums come wandering along through the rest of creation countries that I go to the National Theater every day if I can, even on my new friend 'Casey,' who loves monkeys and chimpanzees and chimpanzees in many ways, but Casey loves the chimp like Kipling's great big, brawling, brutal 'Mowgli.' He is more like a man than any chimpanzee I have seen."
